

Facility Study Committee

2008-09

Objective:

- ❖ Make recommendations to the USD #252 Board of Education and Patrons for the purposes of the construction of additions, new buildings, and facility upgrades to address the future needs of our district academic and extracurricular programs within all of our facilities and communities on or before the conclusion of the 2008-09 school term.

Timeline:

September 2008 – December 2008:

- Conduct meetings and facility tours as needed.
- Meetings will rotate between communities.
 - BOE members from the represented area where each meeting is held will be encouraged to attend for the purposes of information needed regarding board issues.

January 2009 – February 2009:

- Facility Study Committee conducts public meetings in each community to discuss possible recommendations for further input from our patrons.

March 2009 – May 2009:

- Make formal recommendations to the Board of Education.

May 2009 – August 2009:

- USD #252 Board of Education will determine the method and feasibility of all recommendations. Examine and/or hire an architect for surveys, detail cost analysis and recommendations.

Strategic Plan Along With Additional Needs:

District Wide:

- Technology: Networked between all buildings
- **Roofing Needs**
- **Update all HVAC systems district wide to a computerized system to save energy costs.**
